GIVING PROGRAMME 2019 RECAP

Dear colleagues,

For the past few years, our Giving Programme has been dedicated to the cause of Education. We have helped and collaborated with various organisations to make a difference in the area. And we believe we achieved a lot! The programme wouldn't be as successful if it wasn't for your great contribution. We sincerely appreciate your help and would like to express our gratitude by giving you a brief overview of the organisations and initiatives we have supported throughout the last year.

During 2019 thanks to our mutual efforts

we've managed to raise 12 000 BGN

in total – half of the amount donated by you and then doubled by Questers.

EDUCATION

TEACH FOR BULGARIA INITIATIVES

4400 BGN DONATED

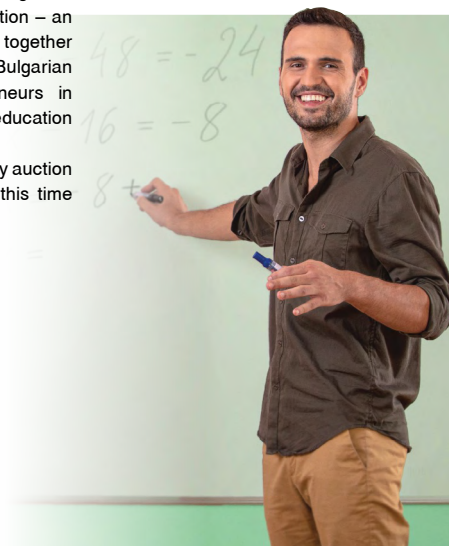

When it comes to the cause of better education, TfB is the first organisation that comes to our mind. We've been collaborating with them for more than 5 years now and we truly believe in the impact they are making on the schooling system in the country.

In 2019 we supported them through the Inspirational Leaders Charity Action – an annual charity event that brings together business leaders, famous Bulgarian artists, athletes and entrepreneurs in support of the cause for better education for every child.

We are participating in this charity auction for a 5th consecutive year and this time donated **4400 BGN**.

MUZEIKO

Muzeiko is an interactive educational centre that we often collaborate with. This year they initiated a new project – Maker Space – a place designed to provoke children to be curious, to experiment and invent new things.

We gladly supported this project as we believe it would inspire many little inventors.

of such organisation, as we are collaborating with them for more than 4 years now. Their Hack Vratsa event is a 3-day hackathon that aims to develop the local IT community. The theme of the 4th edition was Hack for Earth and its aim was to provoke the participants to develop solutions for sustainable life on the planet Earth.
