

FactSet Company (www.factset.com) is a leading provider of integrated, multi-asset portfolio analytics, including performance and attribution, market risk analysis, portfolio construction and GIPS composites management. Our team has developed Cognito – a comprehensive, multi-asset class market risk solution for multi-factor modeling, risk budgeting and portfolio construction. The solution is recognized by many of the leading financial institutions in the world and we have 6 issued patents by the US Patent and Trademark Office for the advanced mathematical and financial algorithms and models it uses. Hundreds of billions of dollars are managed daily with the help of Cognito and with the increase of the interest in it, comes the need for further expansion of our team.

FACTSET

JAVA SOFTWARE ENGINEER
